

Make a Model Volcano

Instructions

- First, label your volcano using the words in the **word bank**.
- Cut out the parts of your volcano carefully. Do not cut the dotted lines.
- Fold along the dotted lines using the **fold key** below.
- Glue the numbered flaps to the straight edges in number order.
- If you have time, you could make a base for your volcano using a piece of cardboard decorated to look like a rocky volcano landscape.

Word Bank

lava flow
main vent
magma chamber
crater
