Quotes

Here are some quotes from some of our young pupils at Langold Dyscarr Community School.

Sofia said, "Wow!" Willow said, "I did not know how big it was!" Henry just started dancing and all of the little children were mesmerised by the pretty lights.

At young voices there were 4911 people this year, all having fun. For some of us, year 6, it was their last year because it's their last year at school.

Food Packing At Local Church

By Hayden Hunter and Willow Pryke

On Wednesday 16th November Year 5 went on a trip to our local Now Church to do food packing.

Fun Fact: Did you know a bag of rice can feed 6 children (an average whole family) or 1 child for a week.

What did they do?

Well after the assembly about Kenya and Nepal and all the countries they will help, Year 5 packed many packets of rice.

The assembly told us about where the charity went, and about the school that they went to and how they were dinner ladies for all the children and all they ate was rice! To us that may seem boring but they were happy because that was all they had.

Things Are Looking Up

Many may be unfortunate but some countries have running water that has been donated!

Amazing Chocolate

By Amelia & Sofia

On the 29th September a man came and showed year 1/2 chocolate so let`s see what they get up to I hope they make something yummy that they will enjoy!

Year 1/2

said they would love to do it at a proper place like where they made it in a factory, so they could make proper bars and keep them for families and friends to keep. They do not want the lolly next time so they have more fun.

Next, they were making rice crispy treats I hope they were very yummy because I would sure like one! They got to have the man from morning to lunch and all of them said we wish he could stay with us.

Year 1/2 have loved the lollipops they were given and they had so much fun I'm guessing they want him again near the future.
